Prins Maurits Believed to Have Sunk With All on Board; Several Are Drowned When Barges Founder Off Virginia Capes: New York Enjoys First White Easter in Years

NORFOLK, Va., April 4—Reports of many marine disasters along the Atlantic seaboard reached this city tonight in the wake of yesterday's violent storm. The loss of life was nőt known.

Five members of the ciew of the tug Edward Luckenbach are known to have been drowned when that vessel foundered off False cape yesterday, and 10 others are missing. The Dutch steamer Prins Maurits is believed to have gone down with all aboard, numbering about 49. The vessel was last heard from early yesterday off Hatteras, when her wireless calls for help said she was in a daughrous condition.

Invaders Driven Back to Own Frontier; Said to Be the Work of Incendiaries

PARIS, April 4 - The Petit Journal save that Scride has protested to Bulgaria because of the invasion of Serbian territory by a force described as Bulgarian irregulars. While couched. in moderate terms, the protest is said to request the arrest and imprisonment of the persons responsible for the raid Further details of the incident rereived today confirm the report that the invaders were driven away from the railroad station at Strumitsa the Serbian town near the Bulgarian bot-

rallway station master at Strumitsa reports that the line to Ghevgheli is now clear of the raiders and apparently has not been damaged Serbian frontier guards who pursued the fleeing irregulars retook the two cannon which had been captured. Six bodies were found in the rail-

way station at Strumitsa. The extent of the losses inflicted upon the attacking force is unknown, but is helieved to be large. Thirty bodies were found and the raiders themselves themselves picked up and buried a number of others This is said to be the fifth incident of its kind since the beginning of the European war, and there is much

significance. It is felt that the attitude of Bulgaria on this occasion will indicate what policy she intends to pursue. The Havas agency peceived today from Nish, Serbia, a dispatch, saving that the losses of the Serbian troops

She can drive a racing auto and play a rattling game of tennis. She is extremely fund of dancing -in fact, she not only is quite up on the modern dances, but she can give a splendid account of herself in some of the more classical lines.

Mildred is a success in film plays because she has ability and because she takes her work seriously. She puts all her energy into her task and constantly studies for her self improvement. She started in pictures only two years ago. After a short time spent, with Vitagraph and Oz companies Miss Harris joined the ranks of Mutual stars by going first to the Inceville studios and then (and this is very recent) to the Reliance-Majestic studios in Los, Angeles, where she now works under D. W. Griffith.

YOTE FOR ANDERSON

THERE is and always has been more complaint about incapacity and unfitness for office in the municipal government than about anything else affecting it. Actual dishonesty has been rare in our history, but the common, ordinary inability to discharge the duties which devolve upon the men elected to responsible places is fraditional. Whoever studies the question of inefficiency in municipal government must reach the conclusion that the greatest reason for waste, extravagance, dishonest or defective public works, high taxes and other evils, is to be found in incompetency on the part of responsible officials rather than in dishonesty.

It is, therefore, nothing less than the solemn duty of every patriotic citizen to vote for the man who is obviously best fitted for a given position, regardless of partisan feeling or other consideration. And it is not often that a campaign occurs in which the contrast in fitness between one candidate and the others is so marked as in the present contest for the commissionership of public works and property. So far as we know all of them are men of good *character and standing in the community, and this being the case the only remaining question is, which is best equipped to perform the duties of the office'

Even the partisans of the other candidates must admit that judged by this test, W. A. Anderson stands far in advance of his rivals, for he alone has had practical experience in the business of road building. Of his six opponents two are building contractors, another a brick mason, another a farmer, another a reel estate agent, and still another a broom salesman.

With all due respect to these gentlemen, how can any of them claim that the experience thus gained has fitted them to deal with the difficult task of maintaining 125 miles of streets in Colorado Springs on an insufficient appropriation, of building bridges, supervising the work of a large gang of laborers, and obtaining results which will satisfy the exacting demands of a population which constantly insists that the streets be kept in the very best condition at all times and seasons?

If each individual voter were required to settle this as a private matter, instead of merely contributing his vote toward settling it as a public matter in other words, if it were up to him to engage a man to run the street department for four years he would unhesitatingly choose the one man in the list of seven who possessed practical knowledge of the business. W. A. Anderson is the man. In his long experience he has done extensive construction work for the Colorado Midland and Denver & Rio Grande railways and for the Colorado Fuel & fron company. He built boulevards for the city of Denver, and the best and most substantially constructed part of the Cascade avenue parking district in this city.

Colorado Springs has an exceptional opportunity in this election to put the right man on the job by electing W A. Anderson Commissioner of Public Works.

BEWARE OF PROMISES

PRE-ELECTION promises of a careless nature are being freely made by the single taxers. They are telling in their advertisements about the great reductions in taxes that will be made when their plan is brought into use in Colorado Springs They buttonbole a laboring man with a small home and tell him that his taxes will he reduced under the Single Tax. The promise sounds good

In Pueblo there are a good many trate taxpayers who are keeping as mementoes of the dear, dead past, postcards sent out before the election there two years ago, telling them what their tax reductions would be under the plan. So little attenfan was paid by the opposition that these statements were not refuted, and it is admitted that they were the best ammunition of the propagandists. Today in comparing these statements figured out on a theory that has never worked successfully eith the assessor's figures. Puebloans are

learning a different story. The taxes were not, lowered under Single Tax; they were raised.

Here are two statements being used in Colorado Springs by the single taxers:

If your lot is worth \$500 and your house \$2,500 vou now pay a 67 mills city tax (\$6.76 per \$1 000) or \$20.10 Under a Single City Tax you would pay 2:per cent on the value of the lot or \$10.00. If your lot is worth \$100 and your house \$309 your city tax now is \$6.70. Under the Single Tax it would be \$2.00.

Colorado Springs property owners should ponder over these figures. Attempts to explain Pueblo's plight have failed. It has been admitted that taxes are higher than before, that the small-home owner suffers, while the corporations are escaping taxes as never before. A movement has started to repeal the Single Tax at the earliest opportunity. The only explanation that can be offered is that the assessor in Pueblo did not do his duty. But the fact remains that the Single Tax has been a miserable failure in Pueblo; the bubble burst before it took on those beautiful colors claimed for it.

But aside from Pueblo's bitter experience it has been conclusively shown that Colorado Springs would not secure lower taxes under the plan. It has been shown that the City's credit would-be impaired, that if a bond issue would be proposed the moneyed interests would not take the City's paper.

In regard to the question of taxation, Dean Persons of Colorado College pointed out in his recent article in The Gazette that there would be no reduction under the proposed plan. Out of a total valuation of \$37,379,280 of city property, real and personal only, the value of the city lots \$12,380,150 would be available for taxation, plus rights of way and franchise values of corporations. These last, he estimates would not be more than \$3,000,-000, which would give a total of approximately \$15,000,000 to be taxed, where now \$37,000,000 is taxed. From the present levy of 6.7 mills for city purposes, at least 20 mills would have to be levied against every dollar to raise the \$250,000 needed for the city. Under the charter 20 mills is the limit for a city levy.

What would Colorado Springs do if owners of lots would refuse to pay the taxes? These lots would be put up for sale, and there would be no sale as there was none in Pueblo. The taxes could not be collected. The City could not raise the levy. It couldn't collect enough money. It would certainly be in a bad way.

Undoubtedly the promises and claims of the single taxers cannot be relied upon. The individual voter should not let these hazy arguments and beautiful promises influence him in deciding on a scheme that doesn't even do what it promises to do.

THE AUTHORITIES DISAGREE

AN ADVERTISEMENT of the Single Taxers which appeared in The Gazette last Thursday contamed this staatement.

To reestablish the political and social equality necessary to the perpetuation of our form of government we must extend land ownership, to all. All citizens must be equal owners of the country and of all its natural resources

In his letter to The Gazette, published Friday, Mr. Ernest Sinton, one of the spokesmen of the movement, said

The issue is not common property in lands . . . Those who cry government ownership and common property are raising a false issue

May we suggest that the Single Taxers organize a get-together movement "in their midst. One contradicts another. Their presumably authoritative statements to the public criss-cross, overlap, and meet each other coming back. Brother Mc-Cleery, according to the testimony of numerous hearers, vehemently declares his willingness to become a Socialist if his Socialist hearers will become Single Taxers and then regrets it and seeks refuge in a denial. Brother Sinton as vehemently declares that the Single Tax and Socialism are as far apart as the poles.

They print an advertisement declaring that "we must extend land ownership to all,' whereupon Brother Sinton again proclaims the division in the ranks by asserting that "the issue is not common property in land."

We begin to wonder whether, after all the Single Taxers are really agreed among themselves on any essential point of their doctrine

the cities will be writte been even and rand touhaseth-rily for publically , but on on wideness of good faith. Controversal Libra. IR not be gut.

He appeared on the lecture course of the state university, and after speaking for a time, invited questions. They came and gave him a "bad quarter

Most of the questions cross from students who had used Walker, Mill and Gide as text books; haves the trouble for Henry George. Driven into a corper, he admitted that Single Tax would deprive the farmers of their land and that it would revert to the state. Asked what he would advise the state to do with the revenue sained by confiscation, with much show of temper, he said he would build a poorhouse to put the farmer, in.

Nice statement that, coming from one claiming to be "for men". At no time did he gain the sympathy of his audience, nor did he, appa, ptly, gain a single convert to Single Tax,

Mark you, that was an intelligent audience, convel but with the subject the speaker was trying to handle, many being some of those whom Hitry George would put in the "poorhouse." They were as willing to defend their homes, as are the homeowners of Colorado Springs.

It's useless for Single Taxors to tell me that George did not intend confistation-I heard him ad-

Why do not the Single Taxara tell us of the prosperity of nearby states who use equal taxation, shunning George's wild theories as they would a plague? Evidently, "distance lends enchantment," so they harp on Canada, etc.

With the editor's kind permission, I am, SMALL HOME-OWNER. Colorado Springs, April 4.

To the Editor of The Gazette: As a resident of the city, I am naturally interested in its municipal affairs. As a practicing physician, I am perhaps more interested in the conduct and administration of the department of health Without indulging in any personalities, of which I do not approve in a political ceropaign, I ask voters to carefully read the following qualifications which the United States government gives for a commissioner of public health:

"This officer should be trained in public health work and give his whole time to the duties of the office. He should understand vital statistics thor-

From the Denver News,

When Dr. Harry P. Packard of Pueblo risked his life to save a large body of Syrians threatened by Turkish troops, he lived up to the traditions of his religion and his flag and of the missionary spirit that prevails the world over. He did his duty as he waw it and will be surprised when he finds that he has become famous

Civilization owes not a little to the missionary she goes forth to unknown lands to preach his religion. The early history of this country is so many records to the patience, altruism and martyrdom of those men who led the was among savages and semisavages and made converts through their own examples more than by their preachments.

Followers of Mahomet forced their religion with the sword. They are periahing by the sword, but in their last struggle against the occident they are using the same means to exait their god and their religion. For half a century we have had to read the horrors of hole wars sgainst the Christian states under dominion of the aulian. The European war that has cost so much already if it does nothing else, will grant freedom to the oppressed

) ears ago the late Marquis of Salisbury, in one of his sardonic monds, declared that missionaries had been at the bottom of most wars. In their endespore to compel acceptance of their religious they involved their countries with the natives, and punitive expeditions followed their advent-This is but a partial truth. The Duty of Our Voters to the Firemen

Previous articles have made it evident that from every point of view it is the duty of voters to vote "For" the Ordinance concerning the hours of Duty of Certain Members of the Fire Department, Providing for a Double Platoon System.'

This ordinance will be just, economical, humane, reasonable, efficient, moral and honest,

Firemen have the same right to be good husbands and fathers as other guardians of the public safety. This is the opportunity to give them what rightfully belongs

Vote "For" the ordinance, establish the Double Platoon and return from the polls with a feeling that you have done your duty well.

Treat the fireman right, give him a square deal. He has been your constant faithful public servant.

Come to The Gazette for Fight News

The Johnson-Willard world's championship fight, which takes place this noon in Havana, certainly will attract more attention than any battle of the European war. The biggest question today is can Willard defeat the big negro-and not, have the Dardanelles surrendered?

The fight starts at 12:30 o'clock, Havana, and the news will come into Colorado Springs at 11 o'clock. The Gazette will, as usual, furnish local fandom with the dope red hot off the wires. Come to The Gazette to find out what's doing. The round by round, blow by blow story will be given out as soon as it comes in. The Associated Press has a squad of the best men in the country at the ringside and its wires will carry the news faster. than any other agency. You can rely upon the A. P. Terrors Are Bidding Good-by to Athletics BLACK'S RECORD Chances for Baseball and Track Are Slim FAR SURPASSES

By T. W. ROSS.

Terrors probably will not be represented on the diamond this year, owing o the fact that games cunnur be obtained without a financial loss to the school. Pueblo has no teams, Cutler academy has disbanded and the Denver schools will play the Terrors on the condition that they come here and, in addition, demand a bonus.

Rumors say that interclass baseball is to be substituted for the intercholastic at the school this year. However, this meets with general dispproval. It is believed that this would not be a success, because little or no nterest at all would be taken by those not participating in the games. This ias invariably been the case in former class contests. No coach has been selected as yet, and those in charge of affairs are in-

lined to be gloomy over the situation. Some time ago the school board took up the matter of a baseball park with the park commission, but the board fefused to give the Terrora exclusive right on specified occasions to their grounds in Monument Valley park. Track is facing similar handicaps. Already it is late iti the season and unless something is done at once the

High school, for the first time in its history, will be without a basebail team. Such a condition of affairs is to be deplored. An institution of its size should always rank high among the schools of the state in baseball and there is no apparent reason as far as has been made public why the Terrors should be in

Events of Last Few Years Show Thet the Negro Has Not Deteriorated

White Man Has Reach, Youth and Height; Johnson Has Spood and Punch

NEW YORK, April 4.- For the fourth time since he won the heavyweight championship from Jim Jeffries in 1910, Jack Johnson will defend his pugilistic title at Havana, Cuba, tomorrow. On that date Jess Willard. the most formicable among the white aspirants for the world's premier ring onor, will meet the negro in what is scheduled as a 45-round battle for the championship. In his long career as a pugilist, Johnson has never faced an opponent of the huge physical proportions of Willard. Because of this advantage in weight, height and reach, as well as the 10 years' difference in their ages, the followers of Willard hope to see his youth and endurance triumph over the superior hoxing skill and ring experience of the champion. It is this meeting between the master pugilist over the prostrate form of the beaten and gigantic novice that lends inter est and uncertainty to the battle Willard, shorn of his physical advantage, would be but a manikin in the hands of the negro, who has learned every trick of boxing known in expert ring strategy during his many years in the squared circle.

Although Johnson's ring career antedates the present century by a few months, his prowess as a fighter did not bring him into prominence in the heavyweight division until 10 years ago, and then his standing did not give much premise of championship possihillties. At that time he began meeting men of his own color, such as Sam McVey, Joe Jeannette, Black Bill, Walter Johnson and others, whom he defeated, in several instances decisively His two winning battles with Joe Jeannette at Battimore and Sam Langford at Chelsea, Mass, in 1906, how, ever, demonstrated that he would have ip he reckoned with by the hest of the fighters, white or colored, with championship pretensions in the heavyweight ciass.

At that time Jeffries had retired earn the ring. I bloom etc. etc. as a once Durable feating the latter, and also Jack O'Brien, who claimed the champion ship, assumed the world's title in 1907. Lang in Australia and ending the come Another remarked. Well, that's back propensities of Bob Fitzsimmons nothing. Billy Dunning fought a draw in two rounds at Philadelphia, and an 11-round knockout of Jim Flynn at San Francisco the same year-1907. In December, 1908, Johnson had the berter of Tommy Burns at Sydney, Australia, when the police stopped the bout the big Gaiveston negro right at the top of his class, and while no one was willing to recognize him as the world's shows that his last fight in 1911 was title holder. Johnson went right on fighting successfully, finishing up with the knockout of the late Stanley Fink won on a foul. Lamp- Ketchel in 12 rounds at Colma, Cal., on October 16, 1909.

> It was then that the negro's pronounced ability and recognized cleverness stung Jeffries into action. The big Californian's self-enforced retirement ended abruptly and Jeffries reentered the fistic arena to again defend the title. This seemed to suit Johnson perfectly, and the great, match for the world's championship was quickly atranged, with the result that Johnson scored a decisive victory over Jeffries at Reno. CANDIDATE FOR THE OFFICE OF COMMIS. SIONER OF PUBLIC WORKS AND PROPERTY

Thirty years of practical experience, and successful experience, in all lines of work and activity which a Commissioner of Public Works and Property is called upon to perform, fit him most admirably for this office. It is a knowledge of this fact that caused his friends and leading citizens, without regard to party, to urge him to stand for this position.
